

CoviScience@ACTREC (donation for charity)

an initiative for the underprivileged

COVID vaccine will be offered free to all above 18 years in Maharashtra at Govt centres. This is an humongous effort. To fill the duration gap between seamless implementation of govt policy, we, the Scientists and Clinicians from ACTREC- Tata Memorial, have initiated “[CoviScience@ACTREC \(donation for charity\)](#)” with the following objectives:

1. Bust the vaccine hesitancy among the underprivileged in neighborhood and sponsor vaccine shots for a target population of 1000, to cut short the delay in their vaccination.
2. Distribute sanitation kit (masks + sanitizers + soap) to a target population of 10,000.
3. Disseminate correct scientific information to the mass.

As a first step, we plan to prepare an exhaustive list of all eligible vaccine seekers, those willing to get vaccinated, in our neighborhood. Towards this, we will:

1. Tap residential complex society office to share the names of all domestic help, security staff and contractual staff members working within a society complex-- as potential vaccine seekers along with their phone numbers (one per family of 4).
2. Street vendors and contractual staff working at commercial shops in Kharghar.
3. Contractors engaged with construction site workers
4. Contractual and permanent housekeeping staff at ACTREC to populate the details of their family members and neighborhood.

Secondly, we plan to generate funds: a target sum of **Rs 1,000,000**.
