

Temporary Suspension of Testing Services

Dear valued Clients,

Please be advised that our in vitro and in vivo testing services under ACDSF will be temporarily suspended due to facility renovation. We are committed to providing high-quality services, and this renovation is crucial to ensure the best possible support for your research needs and efficiency of our operations.

During this period, we will not be accepting new testing requests. However, as committed, processing of the preregistered ongoing study will be continued. We appreciate your understanding and cooperation during this time.

Thank you for your continued support and patience as we work to improve our facilities for better service delivery.
