ABOUT THE ONE-DAY LIVE SURGICAL WORKSHOP

This workshop is intended to discuss the management of advanced oral cancer with an emphasis on the role of compartmental resection. It is specially designed for residents, fellows and clinicians from Maxillofacial, ENT and Surgical oncology background to provide a global perspective on the current trends of oral cancer. The highlights of this workshop are the surgical demonstration of techniques employed for compartmental resection, followed by in - depth scientific session on the current evidence and panel discussion.

“Managing Advanced Oral Cancers Through Compartmental Resection Surgical Techniques”
