WELCOME

The 46th Annual Conference of the Indian Association for Cancer Research (IACR 2027) will be held at ACTREC–TMC from 2nd to 6th February 2027.

The conference will bring together leading scientists, clinicians, researchers, and students to discuss the latest advances in cancer biology, translational research, precision medicine, immunotherapy, molecular diagnostics, and emerging technologies in oncology.

The theme of the meeting focuses on **bridging innovative cancer research with clinical applications** to improve patient outcomes and strengthen collaborative efforts between basic researchers and clinicians. The conference will provide a platform for exchanging ideas, presenting cutting-edge research, and fostering scientific collaborations at national and international levels.

Over the years, cancer research has significantly advanced our understanding of tumor biology, genetics, immunology, and targeted therapies. However, translating these discoveries into accessible and effective patient care remains a major challenge. IACR 2027 aims to address these challenges by encouraging interdisciplinary discussions and promoting translational approaches that can directly benefit clinical practice.

THE CONFERENCE WILL INCLUDE:

Oral Presentation Sessions

Poster Presentation Sessions

Young scientist & student interaction programs

Workshops & Panel discussion

MULTIPLE AWARDS WILL BE PRESENTED FOR:

Young Scientist
